TESTIMONIAL – JOHN WHOLAGAN

John Wholagan of Wholagan Building Inspiration was chosen by us as the builder for our 4 bedroom, 5 bathroom residence and guest wing at our winery in Witchcliffe.

He was chosen after proving to be competent and timely with work undertaken at Leeuwin Estate winery in previous years.

We had absolutely no reason to regret our choice. The house went on to win the Master Builders Association “Country Home of the Year” for 2008.

His team took great pride in their workmanship, including or perhaps especially, the long stone wall that forms the backbone of the home.

With an incredible effort considering the size of the project, it was completed in record time to enable us to have extended family for Christmas.

Perhaps the best reference I can give is to say we maintain a friendship with both John and his sons as the builders, and we all count the architect as a friend also.

Our experience was of a very efficient and co-operative team and we would choose that same team were we to build again.
